**These Matching Tech Trios Give Any Office Instant Style**

Ah, the rule of threes. It's well-known in interior decorating that objects that appear in groups of three are more appealing, memorable and effective than objects in any other numbers. Adding in a standout trio is the most fool-proof way to getting a little drama and interest into your office.

Like Tweet 0 +1 0

There's no shortcut to great office style. But if you start by adding in one of these trios of devices and desk accessories, you'll be well on your way.

**Metallic Masterpiece**
